SKILLS

- **Languages**: Java, JavaScript, Python, C/C++
- **Frameworks**: HTML and CSS, Nmap, Burp Suite
- **Tools/Platforms**: TryHackMe, Hack The Box, LeetCode, MySQL, WireShark
- **Soft Skills**: Problem-Solving Skills, Team Player, Project Management, Adaptability, Time Management

TRAINING

- **Mastering Linux System Administration (RHCSA Summer Training)** Jun' 2025 – Jul' 2025

  About: *Completed intensive Linux system administration training covering system configuration, user & permission management, shell scripting, networking, and server administration.*

  Tech stacks used: *RHEL, Bash Shell, Shell Scripting, LVM, SSH, DNF/YUM, SELinux*

PROJECT

- **Plant Identification Web Application** Sep' 2025 – Present

  - Designed and developed a plant recognition system that identifies plant species from photos uploaded by users.
  - Used Convolutional Neural Networks (CNN) trained on plant leaf image datasets. Achieved accurate classification and quick response output.
  - Implemented web-based platform with intuitive user interface for uploading plant images.
  - Backend server processes images, performs feature extraction, and returns plant details such as species, characteristics, and medical / botanical uses.
  - Integrated plant knowledge database to provide detailed information and care tips.
  - Deployed the system for public access with model hosting on cloud environment.
  - **Tech Stack**: Python, TensorFlow/Keras, Flask/Django, OpenCV, HTML/CSS/JS, Bootstrap, REST API, SQLite/MySQL, Git.

- **RSA Text Encryption & Decryption Web Application** Mar' 2025

  - Developed a secure, web-based RSA encryption platform that converts plain text into ciphertext, ensuring robust data protection and increasing user awareness about the importance of safe digital communication.
  - Implemented a complete RSA encryption–decryption pipeline, enabling users to instantly encrypt any message and securely decrypt it using the corresponding private keys, ensuring end-to-end confidentiality.
  - Designed a clean, intuitive, and user-friendly interface that makes complex cryptographic operations effortless, allowing users to input text, generate encrypted output, and understand the encryption process through direct, hands-on interaction.
  - **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL

CERTIFICATES

- Red Hat System Administration II (RH124) Ver. 8.2 — Jul' 2025
- Red Hat System Administration I (RH124) Ver. 8.2 — Jun' 2025
- Mastering in C:Basic to Beyond by CSE Pathsala — Dec' 2024

Achievement

- 45-day LeetCode problem-solving streak — Oct' 2025
- Awarded as Grade A in RHCSA — Jul' 2025

Education

- Lovely Professional University — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; CGPA: 6.92 — Aug' 2023 - Present
- Trimurti College — Patna, Bihar
  Intermediate; Percentage: 63.6% — Apr' 2022 – Mar' 2023
- St. Joseph High School — Patna, Bihar
  Matriculation; Percentage: 76.2% — Apr' 2020 – Mar' 2021
